TROUBLE IMMINENT.

Montana Indians Arming to Prevent Collection of Taxes.

Missoula, Mont., June 17.-Trouble of a serious nature is imminent on the Flathead Indian reservation. The reds have donned their war paint, and, as they are well armed, it is possible that United States troops will be

On the Flathead Indian reservation are a large number of Indian cattlemen, whose herds are large and constantly growing. The government has decreed that each animal shall be taxed \$1, and this has aroused the anger of the red men. Major Smead. Indian agent, called the wards of the government together a few days ago and told them of the tax. There were deep murmurs of discontent, and the Indians declined to pay, saying the government had already robbed them afternoon and surrounded the comof nearly all they had.

Accompanied by deputies, the agent went to the grazing grounds and attempted to seize a large number of cattle. He was met by a party of the red men, each armed with a rifle. It broke into the building and before 2:07 by Lucille. who told him they would resist the taking of the cattle to the death, if

Several conferences have been held without result. The Indians are determined not to pay, while the agent declares they must. The Indians have been for several days preparing for a clash at arms, and as they have an unlimited number of rifles and are determined to resist the authority of the government, a battle is feared before the end of the week, when the time set for payment of the \$1 tax expires.

Consul G. Bie Ravndal of Beirut, writing to the state department at Washington under date of April 14, says; The Ottoman government has bought the English concession for a line of railroad from Haifa to Damascus. It is intended to build a railway through Gaillee to Mzerib, by way of Beisan, connecting at Mzerib with the Damascus-Mecca line. On the 5th inst, five German civil engineers, employed by the Turkish government, arrived at Haifa, and on the 11th the vali of the province of Beirut unveiled a monument in commemoration of the beginning of operations. The estimated cost of this line from Haifa to 000. It is to be a narrow gauge line (about forty inches in width). The Damascus-Mecca line has now reached a point east of the Dead sea. I bave reason to believe that this railway, instead of running to the Hejjaz, including Medina and Mecca, will take from straight Red sea. FOR "OLD HOME WEEK"

Huge Family Reunion Planned by New England States.

JUST A MILLION SOULS INVITED.

Associations of Prominent Citizens Are Arranging For Big General Celebrations-Some Data About the Ties of Sentiment That Bind Down East States to Each Other.

New England expects to welcome pearly half a million of her scattered children back under their old rooftrees during the summer, says the Brooklyn a Eagle. She is planning-every state of her with the solitary exception of Rhode Island-a mammoth family reunion to take place during the summer vacation. Nearly every town in Maine, New Hampshire, Vermont, Massachusetts and Connecticut has planned an "old home week" for some time between the middle of July and the middle of September. They have invited their wandering sons and daughters, who went forth many years ago to make their fortunes, and their grandsons and granddaughters, who were born in many instances on the soil of some upstart western state and have never seen the old home, back for a week on the old sod. And the invitation is being numerously accepted, and during the vacation thousands and hundreds of thousands will turn their steps eastward.

Just a million have been invited, all told. They have been invited by one or another of the New England towns to come back and join hands with the people still around the old firesides whose grandfathers were the friends and neighbors of their grandfathers. And the idea has taken mightily. All Yankeeland is interested. State associations of the most prominent citizens are arranging for big general celebrations, and each individual town is preparing to look well to its own.

As is usual in such cases it is not entirely a matter of sentiment. New England has a reputation for practical hard headedness which will put even sentiment on a practical, paying basis. She expects to derive a tremendous benefit from this whole "old home week" movement. She is planning the biggest reunion ever projected-in fact, a series of hundreds of reunions combined into one tremendous whole. And she expects to combine profit with the pleasure of the meeting.

Scarcely a city, town or hamlet east of the New York state line but will have its day of welcoming its old townsfolk. The boys that went away poor, the girls that married and made new homes for themselves, will "come back" prosperous, with their families. The experience of the past four years has shown what they will do. Summoned by this call to the old homes, which they would probably not other and made much of. The old love will ... 30.50 return. Some of them will buy old farms and turn them into beautiful country places, others will give libraries or other public buildings, rebuild ancient churches, erect tablets and monuments.

Some idea of the strong ties of sentiment that bind the New England states to each other and to the other states of the Union may be gathered by the following summary. In considering the data we should remember that it represents only present conditions and does not refer in any way to the thousands of native emigrants who have in generations past gone out from these states to fight the battles of civilization, and who have done so much toward pushing our frontier from the upper Hudson to the Mississippi, from the Mississippi to the Rocky mountains, and from the Rocky mountains to the golden sands of the Pacific.

Maine has furnished 216,551, New Hampshire 124,048, Vermont 168,542, Massachusetts 299,614, Rhode Island 61,542 and Connecticut 142,254 toward this grand total of 1,012,367.

Of these New Englanders 312,000 have gone to the middle and extreme west. They have founded cities there and built up states in which the spirit of New England institutions is reincarnated and which stand as a unit with New England on all great questions of public policy and national honor. Scattered along the southern seaboard from Delaware to Florida are 22,000 more and in other parts of the south about 3,000. In the nearer states of New York, New Jersey and Pennsylvania are 177,332, while the interchange between the New England states themselves amounts to about half a million.

California has been the objective point of over 50,000 from New England, and 30,000 have settled in Colorado, Washington and Oregon. Illinois stands close to California, with 40,000 to her credit. Next in order are Minnesota, with 30,000; Wisconsin, with 23,-000; Michigan, with 22,000; Iowa, with 21,000; Ohio, with 19,000, and Missouri, Indiana, Kansas and Nebraska, with a total of 42,000, which is equal to the entire population of Nevada.

New York has drawn upon New England for 126,000 of her people, and the draft has been honored. Sixty-five thousand have gone to swell the population of New York city, while the New England colony in Chicago numbers 23,000, that in San Francisco 10,-000, and an equal number have followed in the footsteps of William Penn to help build up the Quaker City.

In New York city the New Englanders, on Dr. Bangs' calculations, are: From Maine, 5,654; from New Hampshire, 2,331; from Vermont, 4,125; from Massachusetts, 25,235; from Rhode Island, 4,038; from Connecticut, 20,480.

Railroad Through Galilee.

Consul G. Bie Ravndal of Beirut, writing to the state department at Washington under date of April 14. says: The Ottoman government has bought the English concession for a line of railroad from Haifa to Damaseus. It is intended to build a railway through Galilee to Mzerib, by way of Beisan, connecting at Mzerib with the Damascus-Mecca line. On the 5th inst, five German civil engineers, employed by the Turkish government, arrived at Haifa, and on the 11th the vali of the province of Beirut unveiled beginning of operations. The estimated cost of this line from Haifa to it fixed up before your rush commences. Mzerib, by way of Beisan, is \$2,000,-You said if I would telephone to your store you a (about forty inches in width). The Damascus-Mecca line has now reached a point east of the Dead sea. I bave reason to believe that this railway, instead of running to the Hejjaz, including Medina and Mecca, will take from Ma'an a southwesterly direction straight to the gulf of Akaba in the

FOR "OLD HOME WEEK"

Huge Family Reunion Planned by New England States.

JUST A MILLION SOULS INVITED.

Associations of Prominent Citizens Are Arranging For Big General Celebrations-Some Data About the Ties of Sentiment That Bind Down East States to Each Other.

New England expects to welcome pearly half a million of her scattered children back under their old rooftrees during the summer, says the Brooklyn Eagle. She is planning-every state of her with the solitary exception of Rhode Island-a mammoth family reunion to take place during the summer vacation. Nearly every town in Maine, New Hampshire, Vermont, Massachusetts and Connecticut has planned an "old home week" for some time between the middle of July and the middle of September. They have invited their wandering sons and daughters, who went forth many years ago to make their fortunes, and their grandsons and granddaughters, who were born in many instances on the soil of some upstart western state and have never seen the old home, back for a week on the old sod. And the invitation is being numerously accepted, and during the vacation thousands and hundreds of thousands will turn their steps eastward.

Just a million have been invited, all told. They have been invited by one or another of the New England towns to come back and join hands with the people still around the old firesides whose grandfathers were the friends and neighbors of their grandfathers. And the idea has taken mightily. All Yankeeland is interested. State associations of the most prominent citizens are arranging for big general celebrations, and each individual town is preparing to look well to its own.

As is usual in such cases it is not entirely a matter of sentiment. New England has a reputation for practical hard headedness which will put even sentiment on a practical, paying basis. She expects to derive a tremendous benefit from this whole "old home week" movement. She is planning the biggest reunion ever projected-in fact, a series of hundreds of reunions combined into one tremendous whole. And she expects to combine profit with the pleasure of the meeting.

Scarcely a city, town or hamlet east of the New York state line but will have its day of welcoming its old townsfolk. The boys that went away poor, the girls that married and made new homes for themselves, will "come back" prosperous, with their families. The experience of the past four years has shown what they will do. Summoned by this call to the old homes, which they would probably not otherwise have visited, they will be feted return. Some of them will buy old farms and turn them into beautiful country places, others will give libraries or other public buildings, rebuild ancient churches, erect tablets and monuments.

Some idea of the strong ties of sentiment that bind the New England states to each other and to the other states of the Union may be gathered by the following summary. In considering the data we should remember that it represents only present conditions and does not refer in any way to the thousands of native emigrants who have in generations past gone out from these states to fight the battles of civilization, and who have done so much toward pushing our frontier from the upper Hudson to the Mississippi, from the Mississippi to the Rocky mountains, and from the Rocky mountains to the golden sands of the

Maine has furnished 216,551, New Hampshire 124,048, Vermont 168,542. Massachusetts 299,614, Rhode Island 61,542 and Connecticut 142,254 toward this grand total of 1,012,367.

Of these New Englanders 312,000 have gone to the middle and extreme west. They have founded cities there and built up states in which the spirit of New England institutions is reincarnated and which stand as a unit with New England on all great questions of public policy and national honor. Scattered along the southern seaboard from Delaware to Florida are 22,000 more and in other parts of the south about 3,000. In the nearer states of New York, New Jersey and Pennsylvania are 177,332, while the interchange between the New England states themselves amounts to about half a million.

California has been the objective point of over 50,000 from New England, and 30,000 have settled in Colorado, Washington and Oregon. Illinois stands close to California, with 40,000 to her credit. Next in order are Minnesota, with 30,000; Wisconsin, with 23,-000; Michigan, with 22,000; Iowa, with 21,000; Ohio, with 19,000, and Missouri, Indiana, Kansas and Nebraska, with a total of 42,000, which is equal to the entire population of Nevada.

New York has drawn upon New England for 126,000 of her people, and the draft has been honored. Sixty-five thousand have gone to swell the population of New York city, while the New England colony in Chicago numbers 23,000, that in San Francisco 10,-000, and an equal number have followed in the footsteps of William Penn to help build up the Quaker City.

In New York city the New Englanders, on Dr. Bangs' calculations, are: From Maine, 5,654; from New Hampshire, 2,331; from Vermont, 4,125; from Massachusetts, 25,235; from Rhode Island, 4,038; from Connecticut, 20,480.

An action has been brought by J. C. Washington, D. C., June 17-Henry Flynn, of Little Falls, against Foley F. Green, of Duluth, was appointed Bros., and C. B. Buckman. The ownership of the Buckman block, at one time known as the Flynn block, is involved.

It seems back in about 1892 J. C. Flynn gave a mortgage on the block, which he then owned, to Foley Bros. with the understanding that they would not foreclose without giving him notice of fourteen months in which to redeem, For their own protection Foley Bros. had Flynn give them a deed of the property. In 1893 the block was sold to C. B. Buckman, and now Flynn seeks to recover 830,000 or the block. The fight is made the more interesting from the the movement for forest preservation in fact that Flynn has recently acquired some money and now has the "rocks" to wage battle royal. The N. P. is making preliminary experiments with the block system. No towers have been erected but efforts are being made to see how the plan will work. The plan will be established all the way from St. Paul to Jamestown.

The N. P. has the contract for the moving of one troop of cavalry, U.S.A. from Fort Yates, Standing Rock Indian Agency to Fort Yellowstone, Mont. The transfer to be made today. The troops will march from Yates to Mandan and take the train there for the west.

The N. P. machinist helpers, employed in the local shops, a few weeks ago, made a formal demand for an increase of wages. They are receiving \$1.75 per games at Athletic park the latter part | day and asked the company to increase it to \$2. Saturday last the men received an answer from the office of the superintendent of motive power in which the request was denied. The superintendent stated that the same wages prevailed in Fargo that were paid all over the sys tem.-Fargo Call.

TRAIN LEAVES AT 7 O'CLOCK.

There will be in the Neighborhood of Two Hundred People on the Ex-

cursion to Walker.

Everything is now ready for the big Elks excursion to Walker tomorrow. The special Elk train will leave the Northern Pacific depot at 7 o'clock sharp, leaving Walker on the return at 8 o'clock in the evening.

It is thought that there will be in the neighborhood of two hundred people on hearts, wives and families. The Marine band will accompany the jolly crowd and will officiate at the ball game to be played between the Elks team and the high school nine immediately after the arrival of the train at Walker. The band will also furnish music on the boats and at the picnic grounds. The "Hello Bill" and other boats have been chartered for the occasion and the day will be a delightful one.

General C. C. Andrews, Chief Fire War den of the State, Sends out his Annual Report Containing Data

"In his annual report to the state au ditor and forest commissioner, General C. C. Andrews, chief fire warden, makes the following summarized statement of the movement for forest preservation in

"At the highest figure, there remain standing in the forests of Minnesota 30,000,000,000 feet of merchantable pine timber, and of the value of \$120,000,000. The most of it is in the hands of private parties, is mature and should be cut as teen years. The most of it will be Bane's. shipped out of the state. Mature timber is that which has reached its fiscal age the age when it has ceased to earn good interest by its growth. On average pine soil a pine tree does its fastest growing the first eighty years of its life, and at the end of that period it should

"What is implied then by forest 'pres ervation' in Minnesota is the protection from fire of the remaining forests, including the young pine, now all the way from two inches to thirty feet in height, and some of which will be merchantable when the original growth shall have disappeared; the reservation and treatment of forestry principles. either by the United States or by the state of Minnesota, of the few pine lands yet belonging to the United States, and which are better adapted to forestry than agriculture, and finally, the acquisition by the state by purchase of any land that is too sandy, too hilly, or too rocky for agriculture, and holding and using the same for forestry. These three propositions constitute the plat form of the friends of forestry in Min

YOUR MONEY RETURNED.

If Hyomei Does Not Cure You of Catarrh. Say H. P. Dunn & Co.

In advertising that they will refund the money to any one purchasing a Hyomei outfit who can say that it has done ing to the pulp mill has been nearly tarrh, H. P. Dunn & Co. mean exactly what this guarantee says.

> Of course the percentage of cures by Hyomei is nearly one hundred or else they could not afford to make this unusual offer. But if the treatment should not be adapted to your case there will be no questions or quibbling when you go to get your money.

That the beginning of catarrh is due to the presence of germs in the air passages is now admitted by every physician. It stands to reason that catarrh cannot be cured unless these germs are first destroyed. The Hyomei treatment kills the catarrh germs even in the minutest air cells, soothes and heals the irritated mucous membrane and makes complete and lasting cures in cases that have resisted the usual methods of treatment.

Catarrh cannot be cured by medicines administered through the stomach. Hyomei is the only natural method and it has made cures that seem miraculous. An outfit costs but \$1.00 and consists of an inhaler which will last a lifetime and sufficient Hyomei for more than a month's treatment. Additional bottles of Hyomei can be procured for 50c.

H. P. Dunn & Co. give their personal guarantee with every Hyomei outfit they sell or refund the money if it does not cure. There is no risk whatever to the purchaser of Hyomei.

J. C. Flynn Brings Suit Against Foley Bros. and C. B. Buckman for

This Amount. An action has been brought by J. C. Washington, D. C., June 17-Henry Flynn, of Little Falls, against Foley F. Green, of Duluth, was appointed Bros., and C. B. Buckman. The ownership of the Buckman block, at one time

> known as the Flynn block, is involved. It seems back in about 1892 J. C. Flynn gave a mortgage on the block, which he then owned, to Foley Bros., with the understanding that they would not foreclose without giving him notice of fourteen months in which to redeem. For their own protection Foley Bros. had Flynn give them a deed of the property. In 1893 the block was sold to C. B. Buckman, and now Flynn seeks to

recover \$30,000 or the block. The fight is made the more interesting from the fact that Flynn has recently acquired some money and now has the "rocks" to wage battle royal. Mr. Buckman, of course, was an innocent purchaser, and knew nothing about the contract or agreement between J. C. Flynn and Foley Bros.

KING KARAGEORGEVITCH TO BE-COME ONLY A FIGUREHEAD IN SERVIA.

SUPPRESS THE REPUBLICANS

CONSPIRATORS HINT THAT OP POSITION TO THEM MEANS SURE DEATH.

Belgrade, June 17 .- The position of will be a military dictatorship under the leaders of the revolution, Colonel Maschin and Colonel Mitschitch. The new king is almost without any personal adherents, and the ruling spirits "From what I hear, the Reliance is of the army, it is thought probable, they did his predecessor should he oppose their aims.

At the present moment the whole country is under military rule, and "I wish to say in conclusion, gen- although no prefects in the country tlemen, that I hope to meet you all districts have been revoked, each is again when I return, but with the dif- accompanied by an army officer who ference that we shall have that attends the prefect wherever he goes, blooming old mug on the table in even to the telephone. This policy has led to one good result, not a single case of disorder anywhere has been

Used Forcible Argument.

Extremely forcible arguments were found necessary to suppress the Radical aspirations of a republic. The foremost advocate of the creation of a republican form of government was Ljubomir Schickovics, the editor of the Belgrade Odjok. Finding bim impervious to arguments, the conspirators invited him to a dinner at the officers' club last Saturday. During the dinner his host told him that unless he agreed to support Prince Peter Karageorgevitch there would be one head less in Belgrade that night. M. Schickovics yielded to the force of this reasoning and accepted the situation. He is now minister of jus tice in the new government.

The deliberations of the members of the senate and skupshtina on the republican question were materially hastened by the attendance of one of the leaders of the revolution, Colonel Mitschitch. The colonel took no part in the proceedings, but

His Presence Was Significant

enough to induce the members to accept the army's choice. Premier Avakumovics told the deputies that it was useless to talk of a republic, as net gain was 126,308 and the net gain | neither Russia nor Austria would permit it. He further urged that the proposed committee constitution would give King Peter far less power than that enjoyed by the president of the

In spite of the semi-official state ments that the delegation of the na tional assembly elected to submit the crown to the newly chosen king, had already started, it is still here. The government declares that the number of its members, twenty-four, would entail too great a cost on the country in the way of traveling expenses, and the real reason of the delay in its departure is that the government found some of its members to be adverse to King Peter. About a dozen members will probably go.

People Are Indifferent.

Inquiries in official circles everywhere elicit the assurance that the people are delighted with the action of the government, but conversations overheard in public places indicate that the people, especially those living outside the capital, know little and care little about the trend of national politics.

It is believed that the army will try to make secret terms with the new king by which it will retain the supremacy gained by the tragedy, but conditions is uncertain.

One of the highest officials of the present government asked a number of foreign journalists what Europe thought of the way in which the Servian revolution was carried out. He the horse of the third man who was | was told bluntly that it was considered a brutal act. He thereupon explained that from his point of view, New line lace curtains and draperies the assassination of the king and D. M. Clark & Co. 30-tf queen was an act of mercy, as by utterly destroying the dynasty instead of deporting the sovereigns the likelihood of a civil war was precluded.

AFTER DTSPERATE STRUGGLE.

Wisconsin Officers Arrest an Alleged Escaped Convict.

Miwaukee, June 17 .-- A special to the Sentinel from Neenah. Wis., says: Deputy Co. Surveyor. Joseph Barber, reputed to be an es caped convict from the Iowa state prison, was arrested here after a struggle in which Chief of Police James Brown, Andrew McCabe, an Oshkosh detective, and Barber nearly lost their lives. In attempting to take Barber from a houseboat on which he was living, the officers were pulled into Lake Winnebago, and it was only after a desperate struggle that they were able to overcome and place him in a naphtha launch. Barber was wanted in Oshkosh on a charge of larceny.

Father Chidwick Resigns. New York, June 17 .- The Rev. John R. Chidwick, chaplain, in the United States navy, has tendered his resignation to President Roosevelt. Fath er Chidwick was chaplain of the Maine at the time of the explosion in Havana harbor. It is understood that be is to be appointed to one of the important parishes in this city.

SUPPRESS THE REPUBLICANS

CONSPIRATORS HINT THAT OP POSITION TO THEM MEANS SURE DEATH.

Belgrade, June 17.—The position of King Peter I promises to be little more than that of a royal captive; the real government of the country will be a military dictatorship under the leaders of the revolution, Colonel Maschin and Colonel Mitschitch. The new king is almost without any personal adherents, and the ruling spirits of the army, it is thought probable, would just as readily murder him as they did his predecessor should he oppose their aims.

At the present moment the whole country is under military rule, and although no prefects in the country districts have been revoked, each is accompanied by an army officer who attends the prefect wherever he goes even to the telephone. This policy has led to one good result, not a single case of disorder anywhere has been

Used Forcible Argument.

Extremely forcible arguments were found necessary to suppress the Radical aspirations of a republic. The foremost advocate of the creation of a republican form of government was Ljubomir Schickovics, the editor of Belgrade Odjok. Finding him impervious to arguments, the conspirators invited him to a dinner at the officers' club last Saturday. During the dinner his host told him that unless he agreed to support Prince Peter Karageorgevitch there would be one head less in Belgrade that night. Schickovics yielded to the force of this reasoning and accepted the situation. He is now minister of justice in the new government.

The deliberations of the members of the senate and skupshtina on the republican question were materially hastened by the attendance of one of the leaders of the revolution, Colonel Mitschitch. The colonel took no part in the proceedings, but

His Presence Was Significant

enough to induce the members to accept the army's choice. Premier Avakumovics told the deputies that it was useless to talk of a republic, as neither Russia nor Austria would permit it. He further urged that the proposed committee constitution would give King Peter far less power than that enjoyed by the president of the of \$903,487.10 in the benefit fund and United States.

In spite of the semi-official statea balance of \$345,853.20 in the general ments that the delegation of the na tional assembly elected to submit the crown to the newly chosen king, had already started, it is still here. The government declares that the number of its members, twenty-four, would entail too great a cost on the country in the way of traveling expenses, and the real reason of the delay in its departure is that the government found some of its members to be adverse to King Peter. About a dozen members will probably go.

People Are Indifferent.

Inquiries in official circles everywhere elicit the assurance that the people are delighted with the action of the government, but conversations overheard in public places indicate that the people, especially those living outside the capital, know little and care little about the trend of national politics.

It is believed that the army will try to make secret terms with the new king by which it will retain the supremacy gained by the tragedy, but whether the king will agree to the conditions is uncertain.

One of the highest officials of the present government asked a number of foreign journalists what Europe thought of the way in which the Servian revolution was carried out. He was told bluntly that it was considered a brutal act. He thereupon explained that from his point of view, the assassination of the king and queen was an act of mercy, as by utterly destroying the dynasty instead of deporting the sovereigns the likelihood of a civil war was precluded.

AFTER DTSPERATE STRUGGLE.

Wisconsin Officers Arrest an Alleged Escaped Convict.

Miwaukee. June 17 .-- A special to the Sentinel from Neenah, Wis., says: Joseph Barber, reputed to be an escaped convict from the Iowa state prison, was arrested here after a struggle in which Chief of Police James Brown, Andrew McCabe, an Oshkosh detective, and Barber nearly lost their lives. In attempting to take Barber from a houseboat on which he was living, the officers were pulled into Lake Winnebago, and it was only after a desperate struggle that they were able to overcome and place him in a naphtha launch. Barber was wanted in Oshkosh on s charge of larceny.
